AUGER TORQUE EUROPE LTD

ISSUE 13-1

A Customer-Driven Global Company

Established in Europe in 1998, Auger Torque has created a new standard in the Earth Drill and Trencher Attachment market by putting you, the customer, at the centre of everything we do.

In 2005, after surveying the market carefully, we released a new range of innovative products, designed to provide unrivalled reliability and cost effective operation.

Auger Torque is proud to have become part of the Kinshofer Group of companies in 2015. With the backing of the German attachments giant Auger Torque has since enjoyed even greater growth in all areas of its business operations.

Auger Torque's five manufacturing bases around the globe are busy satisfying the ever-growing demand for high-quality products in over seventy countries and on all seven continents.

Auger Torque - A manufacturing company with Global distribution and dealer networks.

AUGER SUMMARY

Full technical details of Augers, Extensions and Wear Parts can be found in the Auger section of this brochure.

S4 AUGERS

Auger Torque S4 Augers feature extra long flighted sections of shallow pitch flights. **Earth, Tungsten** and **Extra Dig** variations are available.

Available in the following diameters:

		•
100mm	300mm	600mm
150mm	375mm	750mm
200mm	400mm	800mm
225mm	450mm	900mm
250mm	500mm	

S4 EXTENSIONS

S4 Auger Extensions are available in the following lengths:

500mm

1M

(other lengths on request)

DON'T LEAVE YOUR TEETH DOWN THE HOLE!

^{**} Auger lengths stated include fitted wear parts.

AUGERS

Features of our Augers

HUB OPTIONS

Augers are available with all major standard hubs on the market, including:

2", 2.5", 3"and 4" Hex 50mm, 2" and 65mm Round 57mm, 75mm, 100mm, 110mm and 130mm Square ...to name but a few.

HEAVY DUTY TUBE

We know that our Augers can expect a tough life so we only use the highest grade steel and vary our tube size according to machine size and application. Our Augers have a reputation of being the toughest on the market.

SHALLOW PITCH FLIGHTS

By working with and, more importantly, listening to operators feedback we have developed the perfect pitch for our flights. It will cut at its maximum efficiency and, most importantly the spoil will stay on your Auger when you remove it from the hole.

SHOCK LOCK Tooth Locking System

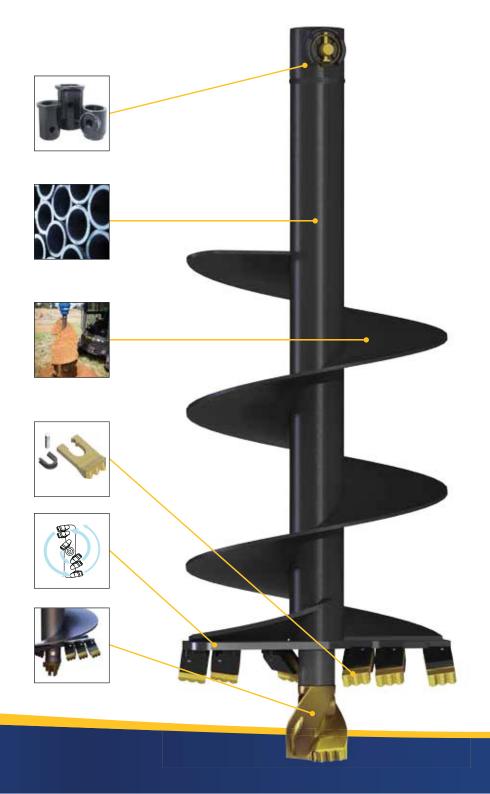

Are you tired of losing your teeth down the hole? With our patented **Shock LockTM** Tooth Locking System loss is now a thing of the past. The simple but effective locking pin holds teeth secure in both directions.

CONSTANT SPIRAL CUT

Our boring heads are designed with a Constant Spiral Cut. Teeth are located so that each makes its own fresh cut on every revolution and are angled to direct spoil towards the centre of the auger. The tooth cutting angle ensures spoil is broken up thoroughly to avoid any clogging.

PILOT AND TOOTH OPTIONS

Auger Torque Augers are offered with many different tooth and pilot options to suit your specific need. For example in the S4 range we offer up to eight different combinations and we have the know-how to help you select the optimal configuration.

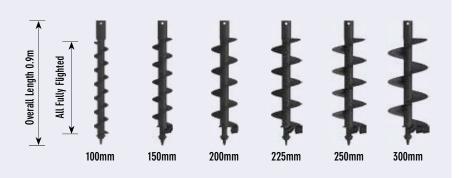

S2 AUGERS

MICRO EXCAVATORS 0.75 - 1 T

With our patented **Shock Lock™** Tooth Locking System tooth loss is now a thing of the past. Using the **Shock Lock™** pin and rubber in our unique **Shock Lock™** tooth holders ensures your Auger teeth are safely locked in place and protected against shock fractures.

Replacing worn teeth is a breeze with this system, simply knock out the old pin with a standard hole punch and the tooth will slide out of the holder with ease. Acclaimed as the best system on the market you will never need to worry about fitting spare teeth due to losing them again.

WEAR PARTS FOR GROUND CONDITIONS

EARTH (Shock Lock™)

Best suited to soft grounds like earth and clay.

TUNGSTEN (Shock Lock™)

Best used in dry, hard or medium ground conditions where floating rocks may be encountered. The perfect all-rounder if you are not sure about what you might encounter.

S4 AUGERS

MINI EXCAVATORS 1 - 5 T, MINI LOADERS, SKIDSTEER LOADERS UP TO 80HP AND TRUCK CRANES UP TO 9 T / METRE

STANDARD HUB OPTION

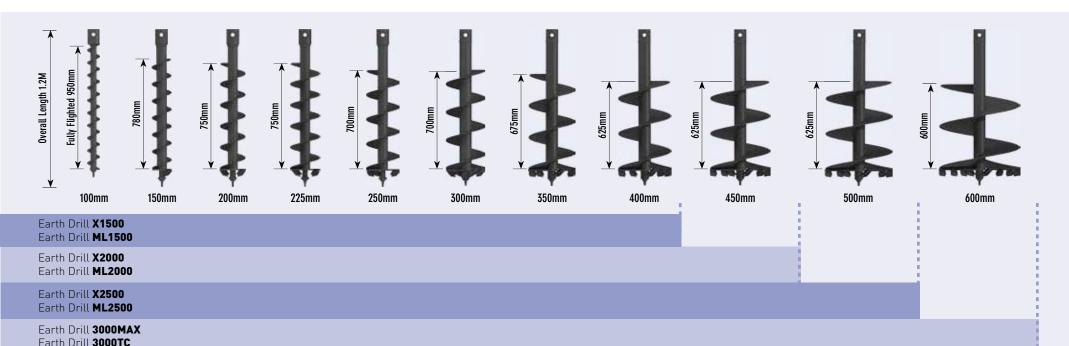

Round

With our patented **Shock LockTM** Tooth Locking System tooth loss is now a thing of the past. Using the **Shock LockTM** pin and rubber insert in our unique **Shock LockTM** tooth holders ensures your Auger teeth are safely locked in place and protected against shock fractures.

Replacing worn teeth is a breeze with this system, simply knock out the old pin with a standard hole punch and the tooth will slide out of the holder with ease. Acclaimed as the best system on the market you will never need to worry about fitting spare teeth due to loss again.

WEAR PARTS REQUIRED FOR GROUND CONDITIONS

EARTH (Shock Lock™)

Best suited to soft grounds like earth and clay.

TUNGSTEN (Shock Lock™)

Best used in dry, hard or medium ground conditions where floating rocks may be encountered. The perfect all-rounder if you are not sure about what you might encounter.

EXTRA DIG PILOT

A stronger Pilot for more demanding ground conditions.

Alignment Monitor

Perfect for Auger and Screw Pile applications, the Auger Torque Alignment Monitor is the essential tool for ensuring your application is precise and quick.

Not restricted to parent machine size, the Alignment Monitor is easy to install. With universal mounting of both the alignment sensor and user display, the sensor is fixed to the top of your existing earth drill. The bright colour display is mounted inside the operators cab in a convenient location. Plug the power lead into the 12/24V power socket, and you're good to go.

The Alignment Monitor has 4 sensitivity settings from 1 to 5° increments, allowing you to adjust to suit the application.

Now that the operator can see the alignment in all directions, there is no need for additional operatives. Perfectly aligned installations are now a one man operation.

FEATURES

- O Plug and play capability
- O Alignment display easily installed in operator cab
- O A compact, bright colour interface
- O Alignment sensor fits to your existing earth drill
- O Sensitivity adjustment to suit the application
- O IP54 rated suitable for use in all weathers
- O 12-24V operating range
- O One man operation
